

# Homework

- Our classroom homework comes home weekly in the form of a contract with daily activities Monday through Thursday.
- Homework contracts and sight word rings should be returned to school every Friday.
- Our homework is designed to involve the families in our kindergarten program. It is not meant for your child to do alone.
- Feel free to download materials that are located in the right hand column or contact me for extra copies.

**Here are a few suggestions to make homework time go smoothly:**

- Work in a quiet place where your child can concentrate and not be distracted by the t.v. or other noise.
- If your child is given a worksheet make sure to read the direction to the child. You should then supervise their work but encourage them to work independently.
- Work at your child's pace. Setting a kitchen timer for 5 - 10 minutes sometimes helps.
- Try to end on a positive note so your child looks forward to the next homework night!

**Thank you for your cooperation in our home/school partnership.**
