

**Muhlenberg School District  
Athletic Department  
Resocialization of Sports Recommendations**

This guidance is preliminary; as more public health information is available, the administration may work with impacted entities to release further guidance which could impact fall, winter, or spring seasons.

**INTRODUCTION**

The COVID-19 pandemic has presented athletics across the world with a myriad of challenges. The COVID-19 virus is a highly contagious illness that primarily attacks the upper respiratory system. The virus that causes COVID-19 can infect people of all ages. Research from the Centers for Disease Control, among others, has found that while children do get infected by COVID-19, relatively few children with COVID-19 are hospitalized. However, some severe outcomes have been reported in children, and a child with a mild or even asymptomatic case of COVID-19 can spread the infection to others who may be far more vulnerable. While it is not possible to eliminate all risk of furthering the spread of COVID-19, the current science suggests there are many steps schools can take to reduce the risks to students, coaches, and their families.

The Muhlenberg School District will take the necessary precautions and recommendations from the federal, state, and local governments, CDC, PA DOH, as well as the NFHS and PIAA. The Muhlenberg School District realizes the knowledge regarding COVID-19 is constantly changing as new information and treatments become available. These recommendations will be adjusted as needed as new information becomes available in order to decrease the risk of exposure for our staff, students, and spectators. Muhlenberg School District reserves the right to open and close facilities as deemed necessary including those previously used for public exercise and leisure activities.

**This Re-socialization plan is applicable currently only to High School Fall Varsity athletic programs. Middle School Fall sports and Winter/Spring HS and MS sports will be re-evaluated at a later date TBD by administration.**

**RECOMMENDATIONS**

Recommendations for **ALL LEVELS** for Junior and Senior High Athletics

1. Athletes, Coaches, and Staff will undergo a COVID- 19 health screening prior to any practice, event, or team meeting. The type of screening will be dependent upon the available resources and the Phase level. The purpose is to check for signs and symptoms of COVID-19. The screenings could range from a verbal/written questionnaire to a temperature check. Temperatures at 100.4 or higher will be sent home.
2. Promote healthy hygiene practices such as hand washing (20 seconds with warm water and soap) and employees wearing a cloth face covering as feasible. (Face coverings are recommended to help decrease potential exposure to COVID-19 respiratory droplets by an infected individual. Face Coverings will not be used for athletes while practicing or competing.) Hand Sanitizer will be available for team use as resources allow.
3. Intensify cleaning, disinfection, and ventilation in all facilities
4. Encourage social distancing through increased spacing, small groups, and limited mixing between groups, if feasible
5. Educate Athletes, Coaches, and Staff on health and safety protocols
6. Anyone who is sick must stay home
7. Plan in place if a student or employee gets sick
8. Regularly communicate and monitor developments with local authorities, employees, and families regarding cases, exposures, and updates to policies and procedures
9. Athletes and Coaches MUST provide their own water bottle for hydration. Water bottles must not be shared.
10. PPE (gloves, masks, eye protection) will be used as needed and situations warrant, or determined by local/state governments.
11. Identify Staff and students who may be at a higher risk of severe illness from COVID-19 due to underlying medical conditions.(See - CDC “People Who are at a Higher Risk for Severe Illness”)
12. Concession stands or other food must adhere to the Guidance for Businesses in the Restaurant Industry.

## CLASSIFICATION OF SPORTS

**High Risk:** Sports that involve close, sustained contact between participants, lack of significant protective barriers, and high probability that respiratory particles will be transmitted between participants. Examples: football, wrestling, basketball, cheerleading (stunts), dance, water polo

**Moderate Risk:** Sports that involve close, sustained contact, but with protective equipment in place that may reduce the likelihood of respiratory particle transmission between participants OR intermittent close contact OR group sports that use equipment that can't be cleaned between participants. Examples: volleyball, baseball, softball, soccer, field hockey, tennis, pole vault, high jump, long jump, 7 on 7 football, lacrosse

**Low Risk:** Sports that can be done with social distancing or individually with no sharing of equipment or the ability to clean the equipment between uses by competitors. Examples: running events, cross country, throwing events, swimming, golf, weightlifting, sideline cheer, bowling

\*\* High/Moderate Risk Sports may move to a Low risk category with non-contact modifications. Team Activities should be limited to individual skill development drills that maintain social distancing.

## LEVELS OF PARTICIPATION

### Level 1 ( PA State Red or PA State Yellow)

Team Activities: No In-person gatherings allowed, Athletes and Coaches may communicate via online meetings (zoom, google meet, etc.), Athletes may participate in individual home workouts including strength and conditioning.

- All school facilities remain closed as per PA State Guidelines.

- Athletes and Coaches should abide by guidelines set forth by the local and state governments.

## **Level 2 ( PA State Yellow or PA State Green)**

Team Activities may include: team meetings, open gym, kick around, weight training/conditioning, running events, cross country, throwing events, swimming, golf, and sideline cheer, etc.

### **Pre-workout Screening:**

- All coaches and students should be screened for signs/symptoms of COVID-19 prior to a workout. The screenings could range from a verbal/written questionnaire to a temperature check.(See Appendix for COVID-19 Screening Form)
- Responses to screening questions for each person should be recorded and stored so that there is a record of everyone present in case a student develops COVID-19
- Any person with positive symptoms reported should not be allowed to take part in workouts and should contact his or her primary care provider or other appropriate health-care professional. A clearance may be required to return to play.

### **Limitations on Gatherings:**

- No gathering of more than (25 Yellow - 250 Green) individuals per group including coaches per practice area.
- Controlled non-contact practices only, modified game rules
- Social Distancing should be applied during practices and in locker rooms, and gathering areas.

### **Facilities Cleaning:**

- Adequate cleaning schedules should be created and implemented for all athletic facilities to mitigate any communicable disease
- Athletic Facilities should be cleaned prior to arrival and post workouts and team gatherings, high touch areas should be cleaned more often
- Weight Room Equipment should be wiped down after an individual's use
- Appropriate clothing/shoes should be worn at all times in the weight room to minimize sweat from transmitting onto equipment surfaces.

### **Physical Activity:**

- Lower risk sports practices may begin
- Modified practices may begin for Moderate and High risk sports (practices must remain non-contact and include social distancing where applicable, activity should focus on individual skill development). Controlled non-contact practices only, modified game rules.
- Students should refrain from sharing clothing/towels and should be washed after each practice, including pinnies
- Athletic equipment that may be used by multiple individuals (balls, shields, tackling dummies, shot put, discus, pole vault, etc.) should be cleaned intermittently during practice and events as deemed necessary. All equipment used in practice should be cleaned prior to the start of practice.
- Hand Sanitizer should be used periodically as resources allow
- Spotters for maximum weight lifts should be stationed at each end of the bar
- All player equipment bags should be placed 6ft from your teammate's equipment
- Face masks or PPE must be used when not participating in practice and during the Health Screening unless a health risk is presented. (To/from practice but not during activity.) Athletes may choose to wear masks or PPE items at all times as long as the items do not compromise the safety of the athlete or others participating in activity.
- Coaches must wear masks or PPE during training unless a health risk is presented.

### **Hydration:**

- Students MUST bring their own water bottle. Water bottles must not be shared.

- Students who do not have proper hydration will not be allowed to participate.
- Hydration stations will NOT be available for sanitary reasons.
- Students/parents will indicate understanding of this policy on the waiver provided.

### **Level 3 ( PA State Yellow or PA State Green)**

Team activities may include: : basketball, volleyball, baseball, softball, soccer, ice hockey, tennis, pole vault, high jump, long jump, 7 on 7 football, etc.

#### **Pre-workout/Contest Screening:**

- Any person who has COVID-19 symptoms should not be allowed to participate in practice/games, and should contact their primary care physician or another appropriate health-care provider. A clearance may be required to return to play.
- COVID-19 Screenings (Questionnaire and Temperature Checks may continue as per State and Local government recommendations)
- Team attendance should be recorded

#### **Limitations on Gatherings:**

- As per State and Local Guidelines
- When not directly participating in practices or contests, social distancing should be considered and applied when able

#### **Facilities Cleaning:**

- Adequate cleaning schedules should be created and implemented for all athletic facilities to mitigate any communicable disease
- Athletic Facilities should be cleaned prior to arrival and post workouts and team gatherings, high touch areas should be cleaned more often
- Weight Room Equipment should be wiped down before and after individual's use
- Appropriate clothing/shoes should be worn at all times in the weight room to minimize sweat from transmitting onto equipment surfaces.

#### **Physical Activity and Athletic Equipment:**

- Low, Moderate, and High Risk practices and Low and Moderate Risk competitions may begin (As per State, Local, and PIAA Guidelines)
- Students should refrain from sharing clothing/towels and should be washed after each practice, including pinnies.
- Athletic equipment that may be used by multiple individuals (balls, shields, tackling dummies, shot put, discus, pole vault, etc.) should be cleaned intermittently during practice and events as deemed necessary. All equipment used in practice should be cleaned prior to the start of practice.
- Hand Sanitizer should be used periodically as resources allow
- Spotters for maximum weight lifts should be stationed at each end of the bar
- All player equipment bags should be placed 6ft from your teammate's equipment
- Face masks or PPE must be used when not participating in practice and during the Health Screening unless a health risk is presented. (To/from practice but not during activity.) Athletes may choose to wear masks or PPE items at all times as long as the items do not compromise the safety of the athlete or others participating in activity.
- Coaches must wear masks or PPE during training unless a health risk is presented.

#### **Hydration:**

- Students MUST bring their own water bottle. Water bottles must not be shared.

- Students who do not have proper hydration will not be allowed to participate.
- Hydration stations will NOT be available for sanitary reasons.
- Students/parents will indicate understanding of this policy on the waiver provided.

#### **Level 4 ( PA State Green)**

Team Activities include: Low/Moderate Sports may resume. High Risk Sports (Football, Wrestling, and Cheerleading Stunting) may begin full person to person contact and competition.

#### **Pre-workout/Contest Screening:**

- Any person who has COVID-19 symptoms should not be allowed to participate in practice/games, and should contact their primary care physician or another appropriate health-care provider.
- COVID-19 Screenings (Questionnaire and Temperature Checks may continue as per State and Local government recommendations)
- Team attendance should be recorded

#### **Limitations on Gatherings:**

- As per State and Local Guidelines
- When not directly participating in practices or contests, social distancing should be considered and applied when able

#### **Facilities Cleaning:**

- Adequate cleaning schedules should be created and implemented for all athletic facilities to mitigate any communicable disease
- Athletic Facilities should be cleaned prior to arrival and post workouts and team gatherings, high touch areas should be cleaned more often
- Weight Room Equipment should be wiped down after and individual's use
- Appropriate clothing/shoes should be worn at all times in the weight room to minimize sweat from transmitting onto equipment surfaces

#### **Physical Activity and Athletic Equipment:**

- All sports may resume normal practice and competition
- Students should refrain from sharing clothing/towels and should be washed after each practice, including pinnies.
- Athletic equipment that may be used by multiple individuals (balls, shields, tackling dummies, shot put, discus, pole vault, etc.) should be cleaned intermittently during practice and events as deemed necessary. All equipment used in practice should be cleaned prior to the start of practice.
- Hand Sanitizer should be used periodically as resources allow
- Spotters for maximum weight lifts should be stationed at each end of the bar
- All player equipment bags should be placed 6ft from your teammate's equipment
- Face masks or PPE must be used when not participating in practice and during the Health Screening unless a health risk is presented. (To/from practice but not during activity.) Athletes may choose to wear masks or PPE items at all times as long as the items do not compromise the safety of the athlete or others participating in activity.
- Coaches must wear masks or PPE during training unless a health risk is presented.

#### **Hydration:**

- Students MUST bring their own water bottle. Water bottles must not be shared.
- Students who do not have proper hydration will not be allowed to participate.
- Hydration stations will NOT be available for sanitary reasons.
- Students/parents will indicate understanding of this policy on the waiver provided.

## **OTHER RECOMMENDATIONS**

### **Transportation:**

Modifications for student/coach transportation to and from athletic events may be necessary. This may include:

- Reducing the number of students/coaches on a bus/van
- Using hand sanitizer upon boarding a bus/van
- Social distancing on a bus if possible
- Assigned seating if possible

These potential modifications will be determined by the school district, bus companies, Department of Education, State and Local governments.

### **Social Distancing during Contests/Events/Activities**

- Sidelines/Bench – appropriate social distancing will need to be maintained on sidelines/bench during contests and events, as deemed necessary by the school, PIAA, state and local governments. Consider using tape or paint as a guide for students and coaches.

### **Who should be allowed at events?**

Group people into tiers from essential to non-essential and decide which will be allowed at an event:

1. Tier 1 (Essential) – Athletes, coaches, officials, event staff, medical staff, security
  2. Tier 2 (Preferred) – Media
  3. Tier 3 (Non-essential) – Spectators, vendors
- Only Tier 1 and 2 personnel will be allowed to attend events until state/local governments lift restrictions on mass gatherings.
  - Changes to seating capacity and social distancing may be necessary for each venue facility and will be determined as more recommendations are released by the local/state governments.

### **Overnight/Out of State Events/ Events in COVID-19 Hot Spots**

- The Muhlenberg School District will evaluate each event and follow all local/state government guidelines on a case by case basis. Every consideration will be taken as to not expose students to unnecessary or potential high risk exposure.

## **POSITIVE CASES AND COACHES, STAFF, OR ATHLETES SHOWING COVID-19 SYMPTOMS**

### **What are the signs and symptoms of COVID-19?**

Symptoms may appear 2-14 days after exposure to the virus. The symptoms may range from mild to severe. (See CDC Fact Sheet in Appendix). Symptoms may include:

- Fever or chills (100.4 or High)
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore Throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

### **What to do if you are sick?**

- If you are sick with COVID-19 or think you are infected with the virus, STAY AT HOME. It is essential that you take steps to help prevent the disease from spreading to people in your home or community. If you think you have been exposed to COVID-19 and develop a fever and symptoms, call your healthcare provider for medical advice.
- Notify the school immediately (principal, athletic director, athletic trainer, coach)
- It will be determined if others who may have been exposed (students, coaches, staff) need to be notified, isolated, and /or monitored for symptoms
- If a Positive case of COVID-19 is Diagnosed Contact Tracing will be implemented with the assistance of local health professionals and the CDC/PA DOH. See Information in Appendix.

### **What to do if a student or staff become ill with COVID-19 symptoms during practice, event, or during transportation to or from an event?**

- Every effort will be made to isolate the ill individual from others, until the student or staff member can leave the school or event
- If student, parent/guardian will be contacted immediately, and arrangements will be made for the student to be picked up
- Ill individual will be asked to contact their physician or appropriate healthcare professional for direction

### **Return of student or staff to athletics following a COVID-19 diagnosis?**

- Student or staff should have medical clearance from their physician or appropriate healthcare professional, determined to be non-contagious,  
Fever free (without fever-reducing medicine), improvement in respiratory symptoms (cough, shortness of breath), no vomiting or diarrhea.

## **EDUCATION**

Staff, Coaches, Parents and Athletes will be educated on the following (through posters, flyers, meetings, emails, phone calls):

- COVID-19 signs and symptoms
- Proper ways to limit exposure to COVID-19 (hand washing, cough in your elbow, disinfecting touched surfaces, social distancing, avoid touching eyes, nose, face and mouth, no spitting, gum chewing, etc.)
- No Handshakes/Celebrations (high fives, fist/elbow bumps, chest bumps, hugging), etc.
- The content of this Return to Sport Guidelines Document
- Any pertinent COVID-19 information released by state/local governments, NFHS, and PIAA.
- students should come dressed for activity
- Limit indoor activities and the areas used. Locker room use is not permitted Facility showers cannot be used
- Student Athletes should remain with their assigned groups during each workout and during daily workouts to limit the number of people they come in contact with.
- No students allowed in training areas without the presence of an athletic trainer

# APPENDIX

## **FALL SPORTS PHASE SCHEDULE**

Level 1 (Current - July 8, 2020)

Level 2 (July 9, 2020 - July 22, 2020)

Level 3 (July 23, 2020 - August 5, 2020)

Level 4 (August 6, 2020 - TBD)

## Sanitizing Facilities

## Post-Workout Procedures

**Individualized Hydration**

# What you should know about COVID-19 to protect yourself and others

## Know about COVID-19

- Coronavirus (COVID-19) is an illness caused by a virus that can spread from person to person.
- The virus that causes COVID-19 is a new coronavirus that has spread throughout the world.
- COVID-19 symptoms can range from mild (or no symptoms) to severe illness.

## Know how COVID-19 is spread

- You can become infected by coming into close contact (about 6 feet or two arm lengths) with a person who has COVID-19. COVID-19 is primarily spread from person to person.
- You can become infected from respiratory droplets when an infected person coughs, sneezes, or talks.
- You may also be able to get it by touching a surface or object that has the virus on it, and then by touching your mouth, nose, or eyes.

## Protect yourself and others from COVID-19

- There is currently no vaccine to protect against COVID-19. The best way to protect yourself is to avoid being exposed to the virus that causes COVID-19.
- Stay home as much as possible and avoid close contact with others.
- Wear a cloth face covering that covers your nose and mouth in public settings.
- Clean and disinfect frequently touched surfaces.
- Wash your hands often with soap and water for at least 20 seconds, or use an alcohol-based hand sanitizer that contains at least 60% alcohol.

## Practice social distancing

- Buy groceries and medicine, go to the doctor, and complete banking activities online when possible.
- If you must go in person, stay at least 6 feet away from others and disinfect items you must touch.
- Get deliveries and takeout, and limit in-person contact as much as possible.

## Prevent the spread of COVID-19 if you are sick

- Stay home if you are sick, except to get medical care.
- Avoid public transportation, ride-sharing, or taxis.
- Separate yourself from other people and pets in your home.
- There is no specific treatment for COVID-19, but you can seek medical care to help relieve your symptoms.
- If you need medical attention, call ahead.

## Know your risk for severe illness

- Everyone is at risk of getting COVID-19.
- Older adults and people of any age who have serious underlying medical conditions may be at higher risk for more severe illness.

03170521 04/12/2020

[cdc.gov/coronavirus](https://www.cdc.gov/coronavirus)

## BACKGROUND

Contact tracing is the process of reaching out to anyone who came into close contact with an individual who is positive for COVID-19. Contact tracing helps monitor close contacts for symptoms and to determine if they need to be tested. Contact tracing is a key strategy for preventing the further spread of infectious diseases such as COVID-19.

## WHAT DOES THIS PROCESS LOOK LIKE?

- In contact tracing, public health staff work with a case to help them recall everyone they have had close contact with during the time they were infectious.
- Public health staff then inform individuals who have had close contact (e.g. “close contacts”) that they have potentially been exposed to COVID-19. Close contacts are only told that they may have been exposed to someone who has COVID-19; they are not told who may have exposed them.
- Close contacts are given education, information and support so they understand their risk. They receive information on what they should do to separate themselves from others who have not been exposed, how to monitor themselves for illness, and are made aware that they could possibly spread the infection to others, even if they do not feel sick.
- Close contacts will be asked to quarantine themselves and are encouraged to stay home and maintain social distancing through the end of their infectious period, which is about 14 days, in case they become sick. They should monitor themselves by checking their temperature twice a day and watch for any other symptoms of COVID-19. Public health staff will check in with these contacts to make sure they are self-monitoring and have not developed symptoms.
- If a close contact develops symptoms, they should isolate themselves and let public health staff know. The close contact will be evaluated to see if they need medical care. A test may be necessary unless the individual is already in a household or long-term care facility with a confirmed case, then the close contact would be considered a probable case without a test.

## WHAT TERMS SHOULD I KNOW WHEN IT COMES TO CONTACT TRACING?

- A **case** is a patient who has been diagnosed with COVID-19. A case should isolate themselves, meaning they should stay away from other people who are not sick to avoid spreading the illness.
- A **close contact** is an individual who had close contact with a case while the case was infectious. A close contact should quarantine themselves, meaning they should stay at home to limit community exposure and self-monitor for symptoms.
- A **contact of a close contact** is an individual who had or continues to have contact with a close contact. A contact of a close contact should take all regular preventative actions, like washing hands, covering coughs and sneezes, and cleaning surfaces frequently. A contact of a close contact should be alert for symptoms.

# RELEASE OF LIABILITY AND ASSUMPTION OF RISK

I desire to enter Muhlenberg School District athletic buildings and grounds (“Premises”) in the Muhlenberg School District (“MSD”) to engage in gatherings for practices and games, or any other group assembly (the "Activity"). As lawful consideration for being permitted by MSD to be on the Premises and engage in the Activity, I agree to all the terms and conditions set forth in this agreement (this "Agreement").

1. I am aware of the contagious nature of the 2019 novel coronavirus disease (“COVID- 19”) and the risk that I may be exposed to or contract COVID-19 by being on the Premises and engaging in the Activity. I understand and acknowledge that such exposure or infection may result in serious illness, personal injury, permanent disability or death. I acknowledge that this risk may result from or be compounded by the actions, omissions, or negligence of others, including volunteers, coaches and MSD employees. I understand that while MSD has implemented preventative procedures to reduce the spread of COVID-19 (a copy of which is attached as Exhibit “A”), MSD cannot guarantee that I will not become infected with COVID-19 while on the Premises and that being on the Premises may increase my risk of contracting COVID-19. **NOTWITHSTANDING THE RISKS ASSOCIATED WITH COVID-19, I ACKNOWLEDGE THAT I AM VOLUNTARILY ENTERING THE PREMISES TO ENGAGE IN THE ACTIVITY WITH KNOWLEDGE OF THE DANGER INVOLVED. I HEREBY AGREE TO ACCEPT AND ASSUME ALL RISKS OF PERSONAL INJURY, ILLNESS, DISABILITY OR DEATH RELATED TO COVID-19, ARISING FROM MY BEING ON THE PREMISES OR ENGAGING IN THE ACTIVITY, WHETHER CAUSED BY THE NEGLIGENCE OF MSD OR OTHERWISE.**

2. I hereby expressly waive and release any and all claims, now known or hereafter known, against MSD, and its officers, directors, employees, agents, affiliates, successors, and assigns (collectively, "Releasees"), on account of injury, illness, disability, or death arising out of or attributable to my being on the Premises or engaging in the Activity and being exposed to or contracting COVID-19, whether arising out of the negligence of MSD or any Releasees or otherwise. I covenant not to make or bring any such claim against MSD or any other Releasee, and forever release and discharge MSD and all other Releasees from liability under such claims.

3. I am familiar with federal, state, and local laws, orders, directives, and guidelines related to COVID-19, including the Centers for Disease Control and Prevention (CDC) guidance on COVID-19. I will comply with all such orders, directives, and guidelines while on the Premises, including, without limitation, requirements related to hand sanitation, social distancing, use of face coverings, and those set forth in Exhibit “A”. I agree not to enter the Premises if I am experiencing symptoms of COVID-19 including but not limited to cough, shortness of breath, or fever, have a confirmed or suspected case of COVID-19, or have come in contact in the last 14 days with a person who has been confirmed or suspected of having COVID-19.

4. I shall defend, indemnify, and hold harmless MSD and all other Releasees against any and all losses, damages, liabilities, deficiencies, claims, actions, judgments, settlements, interest, awards, penalties, fines, costs, or expenses of whatever kind, including but not limited to reasonable attorney fees, and the costs of enforcing any right to indemnification under this Agreement, and the cost of pursuing any insurance providers, arising out or resulting from any claim of a third party related to COVID-19 due to my engaging in the Activity or being on the Premises.

5. Require Athletes and Coaches to provide their own water bottle for hydration. Participation will be denied without proper hydration.

6. Students who are deemed as HIGH RISK (Asthma, Diabetes, Auto-Immune Disorders, etc.) will only be permitted to participate with a current physical and clearance by a licensed physician.

7. All workouts will be off-limits for anyone other than student-athletes, coaches, training staff, and school officials in order to limit the number of people on campus and to ensure high levels of safety.
