SCIENCE FAIR #6 – REVIEW OF LITERATURE (ROUGH DRAFT) – 40 POINTS

ROUGH DRAFT—Now that you have organized your thoughts in outline form, you are ready to make a rough draft of your report. The first section will be an INTRODUCTION of your topic; stating the topic you have chosen and some general, background information about your topic. DO NOT USE 1ST PERSON WHEN YOU ARE WRITING! This is a formal research paper. Next, continue to follow your outline to provide a logical presentation of your information. Use the ROMAN NUMERALS from your outline for your topic divisions. REMINDER; UNDERLINE all scientific terms that will appear in the glossary AND IDENTIFY ANY ABBREVIATIONS OR ACRONYMS!

REVIEW OF LITERATURE
TITLE EACH DIVISION (main idea) of your report. EXAMPLE:

I. INTRODUCTION-HISTORY OF UFO’S (UNIDENTIFIED FLYING OBJECTS)

II. UFO ABDUCTIONS

III. UFO DESIGNS

IV. ALIEN AUTOPSY

Remember, that you should use your outline to write the information. Your science teacher will be looking for your own creative thought. If you are quoting a person, the sentence needs to be in quotation marks. Also, make reference to the person who deserves credit for the idea.

EXAMPLE: According to the United States UFO (Unidentified Flying Object) Information and Research Center, if you have an extraordinary experience you should, “first try to get another witness, and then take as many pictures as possible.”

Be careful not to PLAGIARIZE! Plagiarism is considered cheating and you will be given a ZERO for your project! It has happened in the past! Use www.paperrater.com to check your paper for plagiarism, grammar, and spelling mistakes!

You are required to turn in a USB drive (place in an envelope with your name on it!) OR e-mail in “MICROSOFT WORD” and a STAPLED copy of your Review of Literature on it.

***ASSIGNMENT—ATTACH to this paper a TYPED [ALL: 12 point, Times New Roman font, double-spaced (no extra spaces between paragraphs), 1 inch margins, # the bottom of the pages] copy of your Review of Literature rough draft.

For this assignment only!

***3 FULL PAGES MINIMUM (no diagrams, charts, pictures, photos-JUST TEXT)***

For maximum points, your final Review of Literature will need to be 5+ PAGES!

***WRITE YOUR PROJECT TITLE ON THE LINE BELOW***
