

Who should attend the Muhlenberg Virtual School?

Students in grades K-12 are eligible to participate in MVS. Ideal candidates are those who excel in a non-traditional or blended classroom setting and will benefit from flexible scheduling with an individualized learning plan.

How will students be supported?

Students attending the Muhlenberg Virtual School not only have access to the high quality academic support provided by Edgenuity, but also local district personnel who will be able to provide academic support. A learning lab is also available if a student needs a space to work with or without support. In addition, counseling, college and career planning services, and other school-based services can be accessed by MVS students.

What is the benefit of a local virtual school compared to my cyber/charter school?

Students enrolled in the Muhlenberg Virtual School have full access to the Muhlenberg School District's programs and activities. This includes clubs, activities, sports, etc. Students who graduate through MVS will receive a Muhlenberg diploma

Beliefs About Students and Learning

- Students learn differently.
- Students learn best with challenging and relevant curriculum.
- Students thrive in a safe learning environment.

Beliefs About Teachers and Teaching

- Teachers lead learning through passion, perseverance and personality.

- Schedule Conflict

Vision Statement

The Muhlenberg School District is committed to guiding all students on a path of excellence with active and purposeful learning experiences, a growing and comprehensive curriculum, collaborative and innovative staff and creative use of technology and resources coupled with an unrelenting desire for success.

How it works

The Muhlenberg Virtual School offers numerous online courses to satisfy a variety of student needs. Students may choose to take all of their courses online or may choose to take a blending of online courses and traditional brick-and-mortar courses in our schools.

This curriculum is developed by Pennsylvania certified and highly qualified teachers to meet our district's expectations. The standards-aligned curriculum is designed to fully engage and challenge students through rigorous content delivered by interactive, media-rich instruction. The program is easy to navigate and is student-centered.

The courses include web-based curriculum with material designed for each grade level education (Grades K-12). Highly qualified, state-certified virtual teachers that instruct, remediate, motivate, proactively communicate with students, and provide feedback on assignments

It works like a traditional school except curriculum is online. Log-in and access your courses from home, on-site with a teacher, the public library, or anywhere you have internet connectivity
